Experts decry absence of social security in Nigeria

EXPERTS have warned that the widening gap between the rich and the poor paves the way for political violence. Malignant economic trends that have stunted the growth of the economy are fuelling a ferment of social dislocation in Nigeria. The Social Protection Specialist at the Nigerian Office of the World Bank, Prof. bleach Okomadu, and while some levels of distress may be felt, the slow integration of Nigerians into the global economy poses a serious threat. He added that those who have access to the global market will benefit from the opportunities available.

"We have questions as a society. What are the major drivers of social security in Nigeria?" he asked. He noted that the idea of social security is based on the principle of distributive justice. He added that those who have access to the global market will benefit from the opportunities available.

The National Transfer Account (NTA), a tool for measuring income inequality, has shown that the gap between the rich and the poor is widening. The NTA, which measures the distribution of income, has shown that the gap between the rich and the poor is widening. The NTA, which measures the distribution of income, has shown that the gap between the rich and the poor is widening. Virgina Nigeria restructures, appoints
Olmide as chief commercial officer

VIRGIN Nigeria has announced a major restructuring and appointment of new personnel. Under the new structure, Dr. Yolande Ogunjobi, the chief commercial officer, responsible for the company's Loyalty Programmes, Regulatory Affairs and Product Development. The chief, Mr. Olufemi Olusoji, has been appointed as the chief commercial officer. Mr. Olusoji holds a degree in mechanical engineering from the University of Ife and has over 20 years of experience in the airline industry in Nigeria and the West African region. He is also a member of the International Air Transport. Announcing the new structure, Mr. Olusoji said: "As a forward-looking organisation, this new structure will enable us to leverage our competitive advantage in the aviation industry and build a sustainable business model. The new structure will also enable us to strengthen our network and service delivery, as well as improve our customer experience and profitability. We are confident that this new structure will enable us to deliver on our mandate of providing safe, reliable and cost-effective air transportation services to our customers.
